
Telecommunication Outlet Specifications

100-ohm UTP Cable

Each four-pair cable shall be terminated in an eight-position modular jack in the work area. The 100-ohm UTP telecommunications outlet shall meet the requirements described in EIA/TIA-570.

150 ohm STP-Cable

The telecommunications connector used for terminating the 150-ohm STP cable shall be that specified by ANSI/IEEE 802.5 for the media interface connector. This connector shall be designed so that like units will mate when oriented 180 degrees with respect to each other.
